

# **THE CITY OF MONROE PRESS RELEASE**

**Thursday December 16, 2004**

## ***MONROE ATTRACTS HIGH TECH ENGINEERING FIRM***

**NuWaves Ltd. has chosen a site in the City of Monroe to construct a new state-of-the-art technology and research center. The site will also serve as the company's corporate headquarters ([www.nuwaves-ltd.com](http://www.nuwaves-ltd.com)).**

**NuWaves provides cutting edge RF and electronic design services to several markets. NuWaves is also a turnkey provider for RF and wireless design services. Many of NuWaves services are provided to US defense and military departments for use in combat and homeland security applications.**

**The Monroe project is expected to create up to 40 highly skilled job positions within their new 10,000 square foot facility. Recently, the company received site plan approval from the Monroe Planning Commission for the new facility.**

**NuWaves is a great example of a cutting edge high-tech firm with tremendous growth potential. Further establishing the City's emerging high-tech job base is an important component to the City's overall long-term economic development plan and we welcome NuWaves to the Monroe business community.**

**For additional information regarding this project, please contact:**
