Chairs of the Defense and Security Symposium Select NuWaves to Present  
Four Technology Papers

*NuWaves participates in the 2004 International Symposium on Defense and Security*

West Chester, Ohio ---- NuWaves Ltd. announced today that it has received formal notification of its participation in the Defense and Security Symposium. Four papers will be presented at the conference and published in the proceedings. The paper titles include:

- *“A Study of COTS Wireless Networking Technology and its Applications in Homeland Defense”*, Digital Wireless Communications Conference.
- *“Employing a Communications Payload on an Unmanned Underwater Vehicle (UUV) for Harbor Monitoring and Homeland Defense”*, Unattended Ground, Ocean, and Air Sensor Technologies and Applications Conference.
- *“A Miniature Disposable Radio for Unattended Ground Sensors (UGS) and Munitions”*, Unattended Ground Sensor Technologies and Applications Conference.
- *“A Global Positioning System (GPS) Interference Electronics Support Measure (ESM) Payload System for Unmanned Aerial Vehicles (UAVs)”*, Unmanned Air and Sea Vehicle Technologies and Applications Conference.

“The acceptance of these papers speaks mountains for the engineering talent at NuWaves. The staff is exceedingly committed to furthering the knowledge of the engineering and scientific communities,” said Jeff Wells, president of NuWaves. “We’re very excited and energized regarding participation in the symposium.”
